Nathaniel Urban <urban@nas.org>

Dear [REDACTED]

May I ask, how have the *Supporting Effective Instruction (Title II)* and *Student Support and Academic Enrichment (Title IV)* grants impacted students and teachers? We're looking to see how Department of Education policies affect local school districts. Given my affiliation with AU, I was assigned to the Ashland City School District.

Hello Nathaniel,
[Redacted] has asked me to respond to your questions.

Ashland City Schools uses Title II federal funds to improve the quality and effectiveness of teachers and principals through the use of embedded coaching. The embedded coaching allows us to build fidelity and capacity with our teachers and supports the leadership at the building level.

Title IV funds were used to support a well-rounded educational experience for students in a STEM class, and to support a safe and healthy environment through specially designed instruction through the use of technology.
