<b>HIRING PROPOSAL AND ALLOCATION (Spring – Summer)</b>			
1		<p>Departments and schools complete <a href="#">Request for New Tenure-Track Position Form</a>, to be reviewed and ranked by Dean, then forwarded via the Vice Provost to the Academic Senate Tenure-Track Planning Committee. Committee recommends hire allocations to the Provost. Provost allocates hires and notifies Deans, who receive VPAA# from the Vice Provost via email and initiate search. *BIE Reviewers identified: Senate DEI Committee and one additional faculty member reviewer named by CDO, plus AVPFASS and AVPFSD / CDO. FASS ensures that pre-identified BIE screeners have EEO officer status in Interfolio.</p> <p>Provost’s Office provides expected “not to exceed” salary at time the position is authorized.</p>

2	Depts/Schools	Elect search committees of minimum three (3) tenured/tenure-track faculty members.	<p>Committee members should have a record of achievement or currency in the search field, reflect SDSU’s commitment to diversity, and have no conflicts of interest<sup>1</sup>.</p> <p>Temporary faculty, <a href="#">students</a>, and staff may only serve in advisory or support roles and <i>cannot</i> be granted Interfolio access.</p> <p>Any changes to the search committee must be voted on by the department/school and referred to The Center for the Prevention of Harassment and Discrimination (CPHD) and Office of Faculty Advancement and Student Success (FASS).</p>
<p><sup>1</sup> The Senate Policy File provides the following on <i>Faculty, Staff, and Student Conflict of Interest</i>: “1.0 Faculty must avoid academic supervisory, teaching, or evaluative relationships with students, staff, or other faculty that pose significant conflicts of interest from the standpoint of personal or professional connections. Such connections might include married couples, domestic partners or other affectional liaisons, supervisor/employee relationships, or parent/child relationships. The appearance of conflict of interest should be avoided; the department chair [or school director] should be consulted if questions arise.... Any exceptions should be approved and monitored by the chair or director of the faculty member’s unit, unless the chair [or director] is involved; in case of involvement, the chair [or director] must refer the decision to the dean. If the dean is involved, the exception decision must be referred to the Associate Vice President for Faculty Advancement and Student Success.” Faculty serving on search committees bear responsibility for identifying and disclosing to their colleagues any such conflicts, including significant professional relationships (collaborator, mentor-mentee, co-investigator, co-author, etc.); conflict management strategies (eg., recusal from evaluation of particular candidates, etc.) can be developed with the support of the chair</p>

- Candidates must meet mandatory requirements at the time of hire. If you specify a degree required for hire, please indicate the date the degree is expected to abide by this mandatory requirement. ## MANAGING IMPLICIT BIAS AND ACHIEVING POOL PROPORTIONALITY

Search committees bear an extraordinary responsibility for ensuring that the university realizes its commitments to diversity and inclusion through the hiring process and should seek to fulfill *their responsibility through the following means*:

- All search committee members should undergo **implicit bias training**, at least every three years. The Center for Inclusive Excellence has developed an online, self-paced workshop on Creating an Equity-Minded Campus Community that introduces these concepts. Faculty and staff can enroll at any point and it should take approximately 2-2.5 hours to complete; however, you should complete all modules within two weeks of enrolling.
- All search committees members must review equity-minded practices each time they participate in a search by watching a short video (*Diversity, Equity and Inclusion in Faculty Searches*) prepared by the Office of Faculty and Staff Diversity. This video is updated annually and committee members need to view the video for the year in which their search takes place to ensure all information is up-to-date. See [this document](#) for instructions on how to access these trainings.
- Search committees should review their applicant pools to assess whether they have succeeded in building a pool at least as diverse as the pool of doctorate holders in the field and provide this information on the Request to Negotiate Form. Please contact Faculty and Staff Diversity ([facultydiversity@sdsu.edu](mailto:facultydiversity@sdsu.edu)) to request SED statistics.
- Search committees should take care to ensure that all candidates selected for campus visits have an opportunity to meet with a college diversity liaison, a member of the department or college diversity council, or another representative from Campus Diversity.

## BUILDING ON INCLUSIVE EXCELLENCE

The [Building on Inclusive Excellence \(BIE\)](#) faculty hiring program strives to diversify the faculty by focusing tenure-track faculty searches on candidates who meet criteria aligned with SDSU's commitment to diversity, equity and inclusion.

**The criteria do not require the candidate to identify as part of an underrepresented population. Instead the criteria are designed to assess the candidate's demonstrated commitment to serving and/or addressing issues related to underrepresented populations.** (For the purposes of the BIE, underrepresented populations refer to the following groups: African-American, Latinx, Native American, Southeast Asian, and Pacific Islander, groups of varying abilities, women in the sciences, technology, engineering, and mathematics, or any other group that has been documented as underrepresented in the candidate's academic discipline.)

Evidence should indicate *meaningful* experience or connection to criteria, rather than isolated or ad hoc involvement (e.g., a record of mentoring several underrepresented students over a period of time vs. advising one underrepresented student on one project; leadership or discussion of specific activities in a professional organization vs. just being a member; research that specifically explores and illuminates the experiences of underrepresented populations vs. analysis that includes race and gender as control variables or simply reports results by demographic group without an accompanying emphasis).

The chart below provides examples of the most common forms of evidence and artifacts that can be used to show that a candidate meets a given criterion.

*\*Please note: Building on Inclusive Excellence in an International Context*

A note for reviewers: What people in the United States generally understand “diversity” and “inclusive excellence” to mean is shaped by specifically North American histories of colonization, slavery, and immigration. Depending on their degree of familiarity with this North American context, international candidates for faculty jobs at SDSU may be more or less prepared to respond to the Building on Inclusive Excellence criteria during the hiring process. Consequently, reviewers may find it challenging to evaluate how well some international candidates meet BIE criteria. Please review the following note for international applicants, which SDSU will share with all candidates who apply via Interfolio.

A note for international applicants: *In the United States, specifically North American histories of colonization, slavery, and exclusion have created systemic, widespread inequities in the life opportunities enjoyed by members of different social groups. As a public-serving institution, SDSU is committed to addressing these inequities. Through the Building on Inclusive Excellence program, we seek to actively recruit faculty who have experience addressing inequities through their work as teachers, researchers / scholars / artists, members of a university community, and public servants. If you are an applicant for a faculty position at SDSU who does not have primary experience working with inequities in a United States context, you are invited to reflect on the systemic, widespread inequities that shape the lives of social groups in the places where you have studied and worked. You may respond to the Building on Inclusive Excellence criteria by sharing your experience in higher education settings working as a teacher, researcher / scholar / artist, a member of the university community, or public servant to address these inequities. While in the U.S., we often focus on race and ethnicity, your experience may center more around inequities that impact different social groups on the basis of their gender, sexuality, regional / provincial culture or background, age, language, class, caste, citizenship / migration status, religion, disability, etc. Please share this experience with us. Additional guidance about the Building on Inclusive Excellence program for all candidates can be found [here](#).*

Candidates must meet two (2) or more (some colleges may require a minimum of three—please check your College Diversity Plan) of the eight (8) criteria and the department should provide *unique* evidence for each criterion met.

## BIE SCREENING PROCESS GUIDELINES

1. BIE screeners are identified by CDO: members of the Senate DEI Committee and one additional faculty member reviewer identified by CDO, plus AVPFASS and AVPFSD / CDO. FASS ensures that BIE screeners are given EEO officer status in Interfolio.
2. Interfolio routes Finalists to BIE Reviewers.
3. Reviewers are notified, log in to Interfolio, review finalist documents, and verify that candidates meet **any two of the eight** BIE criteria.
4. A single experience, activity, or attribute may not count for more than one of the criteria.
  - An identity attribute—including status as a foreign faculty member—may not be considered in evaluation of candidates by the criteria.
  - Screeners should recuse themselves from evaluation of any department where they have a conflict of interest (faculty member in the department or partner / spouse faculty member in the department).
  - If a candidate does not receive two approvals within two working days, SACD / CDO will notify the AVPFASS, and the candidate will be approved or referred for appeal by the AVPFSD and AVPFASS within one working day.
  - In case of appeal, the department may provide additional information they think will influence reviewers, put forward a different candidate (i.e., someone else from their shortlist who received first-round interviews), or choose to proceed with just the remaining finalists.
5. If a department wishes to appeal the decision of the reviewers, they may do so by requesting a review by the Chief Diversity Officer and the Provost. In this request, the department must provide information on their search, including their posted ad language, information on where they posted their ad, data from their pool proportionality assessment, and interview questions. If both the CDO and the Provost agree that the department has taken sufficient steps to attract an applicant pool that reflects the available pool of degree holders, and to mitigate bias during the interview process, the appeal will be granted.

## **GUIDELINES FOR ASKING QUESTIONS DURING THE SEARCH PROCESS**

**Appropriate questions focus on candidate credentials and experience in teaching, research/ scholarship/creative activity and service, such as the following:**

- Questions about a candidate's native tongue or how foreign language ability has been acquired. You may ask about foreign language skills if the position requires such ability.
- Questions about loans, financial obligations, wage attachments or personal bankruptcies.

**Reference check questions may include the following:**

- How long have you known \_\_\_\_\_ and in what capacity?
- How would you characterize their accomplishments and strengths as a researcher / scholar / artist?
- If you have observed them teaching, what strengths do they bring to the classroom? Areas of concern?
- Describe their commitment to diversity in teaching, service, and / or research.
- Would you hire or rehire them for a faculty position in your department? Why or why not?
- What have they accomplished and planned for scholarship and research, and what kinds of support do you think he/she would need to be successful as a scholar?

- Is there anything else you can tell me about him/her that would be helpful for our search committee to know? (You may inquire as to any outstanding conduct issues or issues with students.)

**If an applicant inquires about the possibility of future furloughs or layoffs:**

- There are no furlough plans at this time.
- In the event there are layoffs, they will be conducted per the [Collective Bargaining Agreement](#).

**If an applicant inquires about salary, start-up, or negotiation insights:**

- Faculty members or search committee members may not engage in salary discussion or negotiation with the candidates. This is the sole responsibility of the Dean.
