| 1 | 1/2022 | Hafian Lin | Yale University | Eugene Higgins Chair Professor of Cell Biology | <p>"[T]he NIH asked Yale in 2019 about 'the sufficiency of reporting of outside support by some faculty members who received NIH grants.' The university responded with information provided by the professors in question, including Lin. The NIH then 'questioned whether the university's response was accurate with respect to the information provided' regarding Lin.</p> <p>Yale took the position that it was accurate, 'and we advocated vigorously on Professor Lin's behalf'. Strobel and Brown continued. About a year later, after ongoing discussions, the university received word that the DOJ had initiated a criminal investigation, and Yale cooperated by providing materials in response to a subpoena.</p> <p>Federal investigators asked to speak with Lin in March 2021, Strobel and Brown said, and the university retained an outside lawyer to represent him. Then, in January, the NIH 'provided Yale with information that appeared inconsistent with information Professor Lin had provided previously and upon which the university had based its response to the 2019 NIH inquiry. Following a decanal and provostial review, Professor Lin has been placed on paid administrative leave while the university conducts an internal investigation."</p> | N/A | <p>https://www.insidehighered.com/news/2022/03/24/yale-professors-question-chinese-professors-suspension?utm_source=inside+highered&utm_campaign=1905b7082c-DNL_2021_COPY_02&utm_medium=email&utm_term=0_1fcb04421-16b5b7082c-236837678&mc_cid=16b5b7082c&mc_eid=8cae36249</p> | Unknown | Unknown | Suspended; banned from contacting students and colleagues |
| 2 | 10/25/2021 | Xiaoming Zhang | Air War College | Associate Professor of Leadership and Strategy | <p>"According to court documents, Xiaoming Zhang, 69, a naturalized citizen of Chinese descent living in Montgomery, Alabama, began working as an Air War College (AWC) professor in July 2003. During his tenure at the AWC, Zhang would travel to China on a regular basis for work-related purposes, research and to visit family living there. Beginning sometime in 2012, Zhang developed a relationship with a known foreign official working with the Shanghai Municipal Government. Records indicate that Zhang met with the official in person on approximately six occasions and exchanged approximately 40 emails with him from December 2012 to January 2017. At some point during this period, Zhang became aware that the official was using, or attempting to use, their relationship to gain access to sensitive information in Zhang's possession, as well as to make contact with other potentially valuable individuals. ...</p> <p>According to the factual basis contained in the plea agreement, Zhang made multiple misleading or false statements to authorities in an attempt to hide his relationship with the Chinese official."</p> | Making false statements | <p>https://www.justice.gov/opa/pr/former-air-war-college-professor-pleads-guilty-making-false-statements-about-relationship</p> | Unknown | Unknown | Guilty plea |
| 3 | 4/21/2021 | Mingqing Xiao | Southern Illinois University, Carbondale | Professor of Mathematics | <p>"According to court documents, Mingqing Xiao, 59, of Makanda, Illinois, fraudulently obtained \$151,099 in federal grant money from the National Science Foundation (NSF) by concealing support he was receiving from the Chinese government and a Chinese university. ...</p> <p>According to the indictment, Xiao has worked in SIUC's mathematics department since 2000, focusing his research on partial differential equations, control theory, optimization theory, dynamical systems, and computational science. In that position, Xiao allegedly applied for and received NSF grant funds for a project set to run from 2019 to 2022 without informing NSF about another, overlapping grant he had already received from the Natural Science Foundation of Guangdong Province, China. Xiao also allegedly failed to inform NSF that he was on the payroll of Shenzhen University, a public university in Guangdong Province, and that he had already committed to teaching and conducting research at Shenzhen University from 2018 to 2023. ...</p> <p>Before awarding the grant, NSF questioned Xiao about any current or pending funding from "worldwide sources," including specifically whether he held any position outside of the United States or had obtained funding from non-U.S. funding sources. The indictment accuses Xiao of falsely reporting to NSF that he had nothing else to disclose."</p> | Wire fraud; making a false statement | <p>https://www.justice.gov/opa/pr/mathematics-professor-and-university-researcher-indicted-grant-fraud</p> | \$151,099 (NSF) | National Science Foundation | Convicted of tax fraud; acquitted of grant fraud |

Chen will make an initial appearance today before Magistrate Judge Donald L. Cabell.</p> <p>According to charging documents, Chen is a naturalized U.S. citizen who was born in China. He is a professor and researcher at MIT where he serves as Director of the MIT Pappalardo Micro/Nano Engineering Laboratory and Director of the Solid-State Solar Thermal Energy Conversion Center (S3TEC). Since approximately 2013, Chen's research at MIT has been funded by more than \$19 million in grants awarded by various U.S. federal agencies.</p> <p>Since 2012, Chen has allegedly held various appointments with the PRC designed to promote the PRC's technological and scientific development by providing advice and expertise – sometimes directly to PRC government officials – and often in exchange for financial compensation. This includes acting as an "overseas expert" for the PRC government at the request of the PRC Consulate Office in New York and serving as a member of at least two PRC Talent Programs. It is alleged that on Dec. 9, 2019, Zheng stole 21 vials of biological research and attempted to smuggle them out of the United States aboard a flight destined for China. Federal officers at Logan Airport discovered the vials hidden in a sock inside one of Zheng's bags, and not properly packaged. It is alleged that initially, Zheng lied to officers about the contents of his luggage, but later admitted he had stolen the vials from a lab at Beth Israel. Zheng stated that he intended to bring the vials to China to use them to conduct research in his own laboratory and publish the results under his own name." | Smuggling goods from the United States, making false, fictitious or fraudulent statements | https://www.justice.gov/opa/pr/harvard-university-professor-and-two-chinese-nationals-charged-three-separate-china-related | Unknown | Unknown | Sentenced to 87 days in prison and three years of supervised release; deported |

Tsien | Augusta University | Neuroscientist; co-director of the Augusta University Brain and Behavior Discovery Institute; Georgia Research Alliance Eminent Scholar in Cognitive and Systems Neurobiology | "His employer, the Medical College of Georgia at Augusta University, and one of his main funders, the National Institutes of Health, accused him of failing to disclose positions and funding in China, as well as his participation in China's lucrative — and controversial — Thousand Talents recruitment program. The university removed his endowed chair, reassigned him to a smaller lab, and blocked him from sending his genetically modified mice to a professor in Shanghai who wanted to study them. A naturalized U.S. citizen, the 59-year-old Tsien hasn't been charged with any crime. But when he went to China to visit his ailing father in October 2019, FBI and Department of Homeland Security agents seized his laptop and two cellphones at Atlanta's airport.
